Description	A steel fastener with a spaced thread, a point that drills its own hole, and a countersunk flat head of a width 1/3 less than a standard self drilling screw.						
Applications/ Advantages	Ideal for attaching base board or trim through one or two layers of drywall to 12 - 20 gauge metal studs:						
Material	AISI 1016 - 1022 or equivalent steel.						
Heat Treatment	Screws shall be quenched in liquid and then tempered by reheating to 625°F minimum.						
Surface Hardness	Vickers HV 550 - 800						
Case Depth	.004 minimum						
Core Hardness (after tempering)	Vickers HV 270 - 450						
Plating	Trim head self-drilling screws are commonly available in zinc plated coatings. See Appendix-A for details.
